In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

b) This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.

c) There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

d) The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

e) Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (http://www.fma.govt.nz). i) If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

j) The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

Cash distributions will only be paid in Australian dollars to such an account. When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out in the PDS relating to the units in the Fund. Please see the PDS for a description of distributions and the terms and conditions of the reinvestment of distributions.

The distribution reinvestment plan described in the PDS is offered to New Zealand investors on the following basis:

- At the time the price of the units allotted pursuant to the distribution reinvestment plan is set, the Responsible Entity will not have any information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.
- The right to acquire, or require the Responsible Entity to issue, units will be offered to all investors of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- Units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors of the same class as you.

There is available from the Responsible Entity, on request and free of charge, a copy of the most recent annual report of the Fund, the most recent financial statements of the Fund, the auditor's report on those financial statements, the PDS and the Constitution for the Fund (including any amendments). Other than the Constitution, these documents may be obtained electronically from www.indiaavenueinvest.com.

Processing cut-off times

The processing cut-off times for applications and withdrawals referred to in the PDS are Australian Eastern Standard Time (Australian EST) and you should take this into account when sending instructions.

Cooling off rights

Cooling off rights may apply to investors in New Zealand. If you wish to exercise your cooling off rights you should contact the Responsible Entity of the Fund. The PDS contains further information about the rights that may apply.

New Zealand resident taxation

If you are a New Zealand resident wishing to invest in Australia, we strongly recommend that you seek independent professional tax advice. 1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed India Avenue Investment Management Australia Pty Limited ("India Avenue") as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

India Avenue Investment Management Australia Pty Limited

India Avenue, a boutique investment management firm with a focus on India, is the investment manager of the Fund. India Avenue was established in 2015 to provide clients domiciled in Australia and New Zealand with exposure to the strongly growing capital markets of India.

2. How the India Avenue Equity Fund H Class works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is $10,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Mainstream Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968,
Sydney, NSW, 2001

or sending it by fax to +61 2 9251 3525

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.35%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is $1,000 (unless otherwise determined by the Responsible Entity).

You can also invest on a monthly basis via the Saving Plan with a minimum of $2,000 per month. Monthly payments will be made on or about the 20th of each month.

Switching between classes

Investors may switch between classes, please complete a switch request form available at www.indiaavenueinvest.com. There will be no Buy/Sell Spread switches, however you should obtain financial and taxation advice tailored to your personal circumstances and consider whether switching is appropriate for you in light of those circumstances.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at the end of June. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution paid in cash if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the India Avenue Equity Fund - H Class New Zealand Investors Information Sheet).

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Mainstream Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968,
Sydney, NSW, 2001

or sending it by fax to +61 2 9251 3525

The minimum withdrawal amount is $1,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 10 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.35%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below $10,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the India Avenue Equity Fund H Class

The Fund is actively managed, principally investing in a diverse range of Indian companies listed on Indian stock exchanges and other recognised stock exchanges globally. India's economic growth over the next several years is forecast to be one of the highest amongst the major world economies, driven by a youthful population, a burgeoning middle class and rapid urbanisation. This bodes well for several Indian companies that are expected to generate significant profits from this economic development and underlying domestic driven demand. The Fund seeks to identify and invest in many of these strongly growing companies in order to create significant wealth for investors. For Australian and New Zealand investors, an investment in Indian equities provides diversification benefits as both the Indian equity market and the Indian Rupee tend to have low correlations to the Australian and New Zealand equity markets. The significant advantages that the Fund provides for investors include:

1. **Sole Focus:** The investment manager, India Avenue is purely focused on investing in India's capital markets for the benefit of its clients.
2. **Local & Global Experience:** The investment team at India Avenue and its investment advisors have significant experience in managing money in India, as well as in Australia.
3. **Risk Management:** The Fund aims to deliver on its investment objective with lower risk than the benchmark over rolling 5-year periods. Whilst, India Avenue believes Indian equity markets will deliver attractive returns over time, managing risk is crucial as market volatility can impact short-term performance.
4. **Optimal Access:** India Avenue believes an active approach, particularly where markets are less efficient (like India), is likely to produce superior returns over the long term in comparison to investing passively.
5. **Access to Local Investment Talent:** India Avenue's experienced investment team identifies skilled investment advisers on the ground in India through a detailed due-diligence process. These advisors have proven track records and substantial localised knowledge, market connectivity and understanding of the corporate and regulatory environment in India, which enables them to identify opportunities early.
6. **Unique Investment Process:** India Avenue undertakes three layers of investment analysis to manage the Fund:
   - Rigorously monitors the investment landscape to determine 'best of breed' investment advisers based in India.
   - Investment advisers are selected for their investment expertise, the complementarity of investment styles and diversification they bring to the portfolio. The portfolio construction process creates a robust, well diversified fund

that can outperform across various investment cycles. India Avenue receives non-binding investment advice from its advisors and has the discretion to execute / reject the recommended investments.

- Continuously monitors the market environment to identify both current and long-term investment opportunities and may implement tactical tilting between investment advisers depending on their view going forward. The investment team can initiate overlays to manage risk.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Investment Risk

The value of your investment can fluctuate over time and is dependent on a range of factors, both globally and domestically in India. Factors such as GDP growth, interest rates, inflation, government policy, exchange rates and investor sentiment can all have an impact on the value of your investment.

Country Risk

The value of your investment can be impacted by changes in the local landscape in India such as changes in government policy, legislation, tax and regulation, economic reforms, corporate governance and the country's credit rating to name a few. Investors should be aware that as the Fund is focused on investing in India, country specific risks cannot be completely removed by the Fund's investment strategy. India Avenue may seek to reduce some of the impact from a country specific event by holding cash (between 0-30% of the Fund) to protect the value of your investment where appropriate.

Currency risk

The value of your investment will be impacted by changes in exchange rates of both the Australian Dollar (as the currency of the units of the Fund) and the Indian Rupee (as the currency of underlying investments of the Fund). While the Fund does not currently hedge against adverse movements in currency, India Avenue may at some stage in the future introduce a currency hedging strategy.

India Regulatory Risk

The Fund will hold Foreign Portfolio Investors ("FPI") registration from SEBI and make investments in the listed Indian equities in accordance with the Securities and Exchange Board of India (Foreign Portfolio Investors) Regulations 2014 ("FPI Regulations"). In the event the registration as an FPI is terminated, the Fund could potentially be forced to redeem its investments and such forced redemption could adversely affect the returns to Investors. The Fund intends to take all reasonable care in its activities to ensure that it will continue to maintain FPI registration, however no assurance is provided in this regard.

India Tax Risk

Investors in the Fund are subject to a number of risks related to tax matters. In particular, the tax laws relevant to the Fund are subject to change, and Fund / Investors could incur tax liabilities as a result of such changes. The tax consequences of the investments by the Fund will depend on circumstances particular to each Investor and the additional peculiarities associated with respect to activities of each portfolio companies of Fund. Accordingly, the Prospective Investors are strongly urged to consult their tax advisors with specific reference to their own situations.

As per the provisions of the Income Tax Act 1961 ('the ITA'), any person other than a company (i.e. partnership, trust, etc.) would be said to be non-resident in India if 'control and management of their affairs' is situated wholly outside India during the year.

In case the Fund (the Trust) is deemed to be a resident in India, it would not be eligible for concessional tax rates available for FPIs and consequently could be liable for higher tax rates as per the provisions of the ITA.

The Fund intends to take all reasonable care in its activities to ensure that its control and management is situated wholly outside India during the tenure of the Fund. However, no assurance can be provided that the Indian tax authorities will not challenge the same. Alternative tax positions adopted by the income tax authorities could give rise to incremental tax liabilities in addition to the tax amounts already discharged by the Fund. Also refer to the paragraph on Indian Tax Considerations below further explaining the Indian Tax Rules and Tax rates.

You should read the important information in the Reference Guide "Additional risks of managed investment schemes" section before making an investment decision. 5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to exceed its benchmark, in AUD terms after fees, over rolling 5 year periods. Returns are not guaranteed.

Benchmark

MSCI India in AUD.

Minimum suggested time frame

The minimum suggested time frame for investment in the Fund is five years.

Risk level

Given the Fund's focus on investments in listed securities of an individual country's markets with exposure also to a specific currency, it can be classified as a **high risk investment**. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term. Investors should seek adequate diversification by discussing their investment requirements and objectives with their financial planner.

Investor suitability

The Fund is designed for investors seeking higher return over a long term investment horizon and are therefore willing to accept a higher degree of risk for such returns.

Investment style and approach

India Avenue's investment philosophy seeks to capture two primary sources of investment return over time:

1) India's expected strong GDP growth over the next few decades is likely to lead to significant investment returns from investing in its capital markets; and
2) Active management, particularly where markets are less efficient, is likely to deliver superior returns over the long term in comparison to investing passively.

Additionally, India Avenue partners with selective local investment advisers to identify the best companies to invest in. "Partnering" refers to outsourcing of stock selection to selective high calibre local investment advisors who have access to corporate management and strong network within local markets.

Investment Process

India Avenue's investment process involves:

1) Strategic and thematic idea generation to formulate the strategy for the portfolio
2) Investment Advisor selection
3) Portfolio construction

In selecting the investment advisors, India Avenue follows the following process:

- Identifying an investment universe of suitable investment advisors through India Avenue's investment experience, strong network, database and local market connectivity
- Quantitative analysis to screen for appropriate investment advisors
- Qualitative analysis and oversight to reduce investment advisors to a short list. Some of the factors examined include:
  - i. A reputable asset manager, with an audited performance track record
  - ii. Experience and stability of the investment team of the investment advisor
  - iii. A consistent and rational investment philosophy and process
- Due-diligence on short listed advisors, including attribution analysis to determine core skill sets
- Structuring of investment advisory agreements
- Establishment of "back-up" investment advisors
- Portfolio construction incorporating blending of different investment styles
- Review and ongoing monitoring

India Avenue may conduct due diligence on the stocks recommended by the investment advisors. If the recommendations given by the advisors aligns with the overall objective of the Fund, India Avenue proceeds to make the investment in the selected stock, if not, India Avenue may reject the recommendations of the investment advisors, at their own discretion.

All investment advisors are remunerated based on their provision of advice which includes proposed stock names, stock weighting allocation and cash levels. However, all execution and implementation of trades proposed occur through India Avenue's staff.

Asset allocation

The Fund will invest in a diversified portfolio of stocks of Indian companies either listed on stock exchanges in India or any other recognised global stock exchange. The Fund may also invest in cash and cash equivalent instruments like short term money market securities as well as both exchange traded and over the counter derivatives for hedging purposes.

Asset Limits:

- Indian Listed Equities 70-100%
- Cash and Cash Equivalents 0-30%
- Derivatives 0-20%

The asset allocation guidelines indicated above are not absolute and can be exceeded due to sudden market movements or transitory changes from large cash flows or portfolio construction decisions. Non-compliance with the stated investment guidelines will only be short term as changes are implemented with the intention being at all times to protect the interests of the Unit holders. These asset allocation limits are subject to change in the future without notice depending on the view of the India Avenue. The cash component of the portfolio may be allowed to build to a level of 30% or more during periods where very high cash inflows occur.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

India Avenue's investment process takes into account environmental, social and governance issues faced by listed companies in India, as part of the overall selection process, when considering inclusion of investments into its portfolio. The process however, does not take into account labour standards and ethical considerations.

India Avenue incorporates this awareness by appointing investment advisers, with an investment mandate provided by India Avenue's investment team. Mandates incorporate a discipline around investing with awareness of environmental, social and governance issues faced by companies.

Thus our advisers provide us with advice to buy, sell and construct investment portfolios with this in mind. Given that ESG focused investment mandates are in a nascent stage, we provide guidance to our advisers on company activities which may be considered controversial. Ideally, we look to screen out businesses with a majority of their revenue being derived from an activity which may be contradictory to practicing good social, environmental and governance behaviours.

Fund performance

Up to date information on the performance of the Fund will be available by visiting the website www.indiaavenueinvest.com or www.eqt.com.au/insto. Remember, past performance is not a reliable guide to future performance of the Fund.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from $100,000 to $80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

[2] The management fee component of management fees and costs can be negotiated. See "Differential fees" in the "Additional Explanation of Fees and Costs" below.

[3] This represents the performance fee of the Fund which is payable as an expense of the Fund to the Investment Manager.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.50% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Performance fees

Performance fees include amounts that are calculated by reference to the performance of the Fund. The performance fees for the Fund are 0.00% p.a. of the NAV of the Fund. The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Fund is averaged and totalled to give the performance fees for the Fund.

In terms of the performance fees payable to the Investment Manager, a performance fee is payable where the investment performance of the Fund exceeds the MSCI India in AUD ("Benchmark") . The performance fees of are 10% of this excess, calculated daily and paid annually in arrears from the Fund and calculated based on the beginning NAV of the Fund over the relevant period.

No performance fees are payable until any accrued underperformance (in dollar terms) from prior periods has been made up (this feature is sometimes referred to as a high-watermark).

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.35% upon entry and 0.35% upon exit. The dollar value of these costs based on an application or a withdrawal of $10,000 is $35 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.indiaavenueinvest.com will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.18% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2020.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors. Please contact the Investment Manager on +612 8245 0506 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – India Avenue Equity Fund H Class		
BALANCE OF $50,000 WITH A CONTRIBUTION OF $5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional $5,000 you put in, you will be charged $0
Plus Management fees and costs	1.50% p.a.	**And**, for every $50,000 you have in the India Avenue Equity Fund H Class you will be charged or have deducted from your investment $750 each year
Plus Performance fees	0.00% p.a.	**And**, you will be charged or have deducted from your investment $0 in performance fees each year
Plus Transaction costs	0.00% p.a.	**And**, you will be charged or have deducted from your investment $0 in transaction costs
Equals Cost of India Avenue Equity Fund H Class		If you had an investment of $50,000 at the beginning of the year and you put in an additional $5,000 during that year, you would be charged fees and costs of: $750* **What it costs you will depend on the investment option you choose and the fees you negotiate.**

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the $5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the $50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the Fund, generally over the previous five financial years. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.indiaavenueinvest.com or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

The Fund is a trust that will hold an Indian FPI license and pays tax on its gains in India. Certain taxes suffered by the Fund may be distributed to Investors as Foreign Income Tax Offsets. Each Investor will need to obtain its own advice as to its ability to apply such offsets against its Australian taxable income. Please refer to the Reference Guide for further information on Indian Tax.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Mainstream Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968,
Sydney, NSW, 2001

or sending it by fax to +61 2 9251 3525

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.
